Contribution ID: **214**                                                                Type: **not specified**

# io_uring in Android

*Tuesday, 13 September 2022 17:45 (15 minutes)*

This presentation will talk about the usage of io_uring in Android OTA, present performance results. Android OTA uses dm-user which is a out of tree user space block device.

We plan to explore io_uring evaluating the RFC patchset : https://lore.kernel.org/io-uring/Yp1jRw6kiUf5jCrW@B-P7TQMD6M-0146.local/T/#m013adcbd97cc4c4d810f51961998ba569ecc2a62

## I agree to abide by the anti-harassment policy

Yes
