Upstreaming out-of-tree HW-specific code

_(｡°wie°)_/_(｡°wie°)_

(｡. but more on this later)
G is for Generic

GSI + GKI

Vendor Implementation of HAL Interface

Linux Kernel Modules for SoCs / Peripherals
Is GKI feasible today?

- CPU (all variants) support
- Device Tree Usage
- Subsystems
  - Display
  - Camera
  - GFX
- Core SoC needs (Clock Tree, Power management)
Discussion
